YOUR PROJECT BRIEF

A form nobody fills correctly *is a finding waiting to happen.*

Dotted lines, no form number, “ok?” columns. Records are the proof of your system, so the form must make filling easy. This file shows you my way of working, lets you choose a design and tells me what you need. Fill it in a few minutes, save it and send it back to me.

Before

After · my way

My tip: Write the limit, not the action.

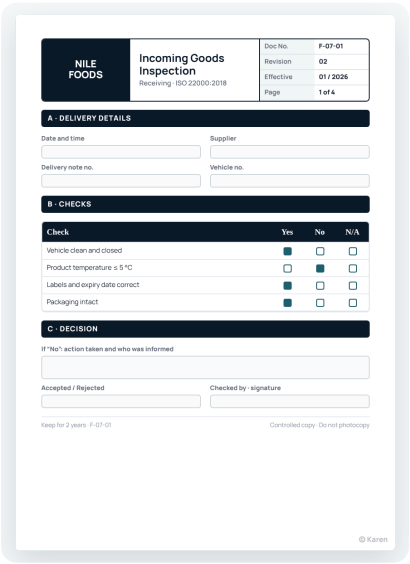

“Check temperature” gives ten different answers. “Temperature ≤ 5 °C: Yes / No” gives one. Clear limits make records an auditor can trust.
