YOUR PROJECT BRIEF

A manual copied from the standard *tells an auditor nothing.*

Pasted clauses, a wrong year, “insert process map here”. Your manual should describe how your company really works. This file shows you my way of working, lets you choose a design and tells me what you need. Fill it in a few minutes, save it and send it back to me.

Before

After · my way

My tip: Write how you work, then map it to the standard.

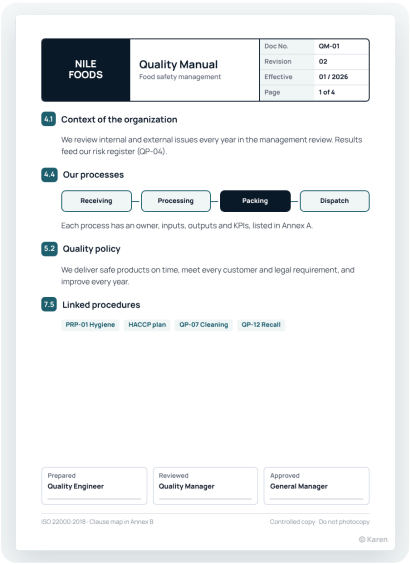

Auditors trust a manual that sounds like your company. Describe your real processes first, then add a clause map that shows where each requirement is met.
