YOUR PROJECT BRIEF

A wall of text on a slide *loses the room in 10 seconds.*

Five long bullets, small font, no message. Your audience reads instead of listening, and remembers nothing. This file shows you my way of working, lets you choose a design and tells me what you need. Fill it in a few minutes, save it and send it back to me.

What you get

- **Editable PowerPoint + PDF** — Change anything later
- **Your brand colours and fonts** — A deck that looks like you
- **Icons, charts and visuals** — From your own data
- **Smooth, simple animation** — That explains, not distracts
- **Arabic, English or both** — Right-to-left done properly
- **2 weeks of free revisions** — Confidential, always

How it works

1. **Fill pages 3 and 4** — Pick a design and answer a few questions
2. **Send it back** — By email or in our chat
3. **Fixed price and time** — I reply myself within 15–30 minutes
4. **We start** — Source files, checked 3 times

Before

After · my way

My tip: Write the slide title as a sentence.

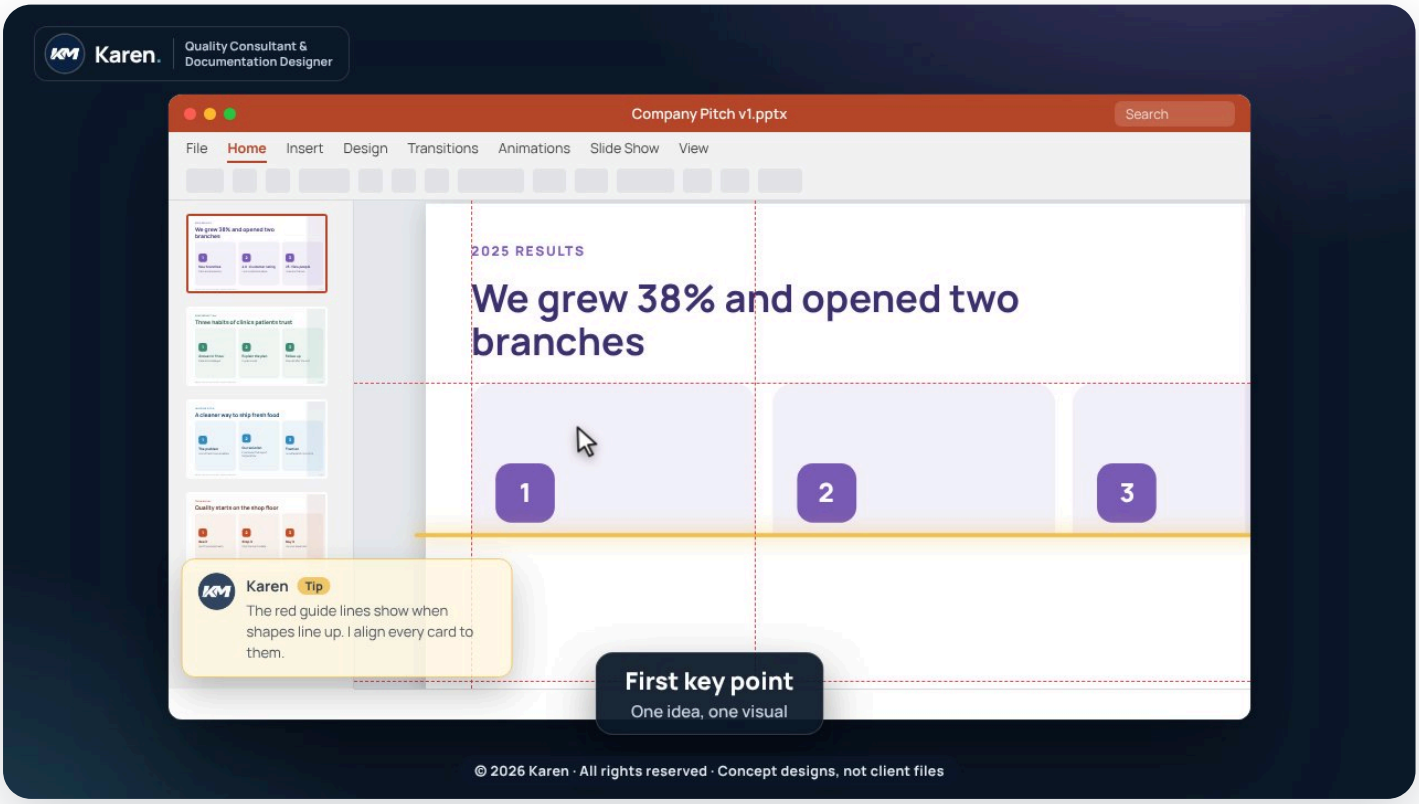

"Sales grew 38%" tells the story. "Sales" is only a topic. If your audience reads only the titles, they should still get your message.

HOW I WORK ON YOUR FILE

By hand, *step by step.*

A moment from my work on a file like yours. I build everything on the program's own tools, so the file stays easy for you to edit later.

Two things I do on every file

One Slide Master

I set fonts and colours once in the Slide Master. Every slide follows, including the ones you add later.

Details in the speaker notes

The slide keeps one message. The details go in the notes, so you know what to say.
