1 About us

Since 2010 we have helped companies in the region build safe, efficient operations. This document explains our services, our results and how we work with you.

1.1 What makes us different

One team from first visit to final report, written in clear words and delivered on time.

My tip: Use Heading 1, 2 and 3. Always.

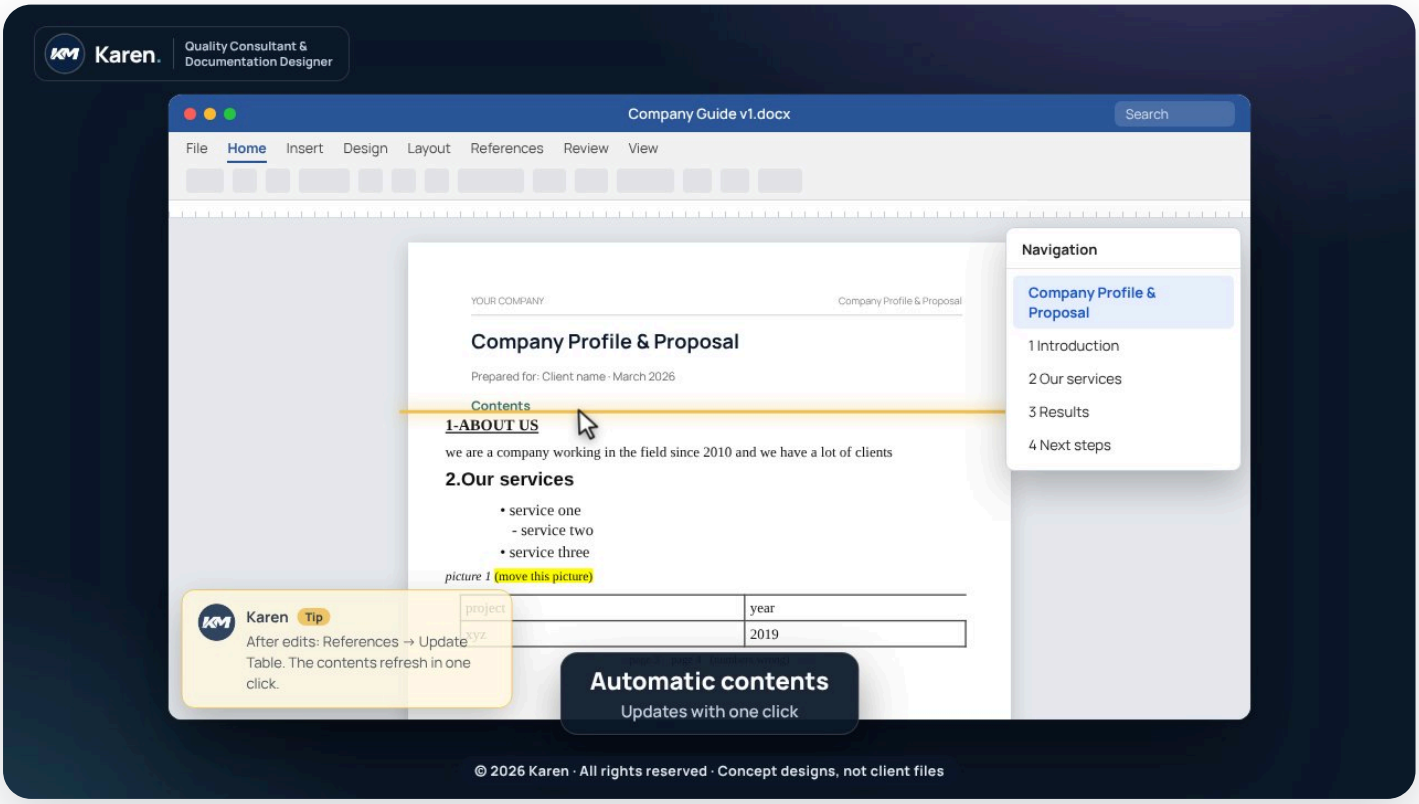

Never make a title by making text big and bold. Use heading styles, and Word builds your contents page, numbering and navigation for you.

HOW I WORK ON YOUR FILE

By hand, *step by step.*

A moment from my work on a file like yours. I build everything on the program's own tools, so the file stays easy for you to edit later.

Two things I do on every file

Styles, not manual formatting

Change the Heading 1 style once and every heading in the file follows.

Headings that never sit alone

I tick "Keep with next", so a heading never sits alone at the bottom of a page.
