YOUR PROJECT BRIEF

# Months of research.
# *Rejected for formatting.*

Three citation styles, “Figure here”, wrong page numbers. Your committee notices before they read a word. This file shows you my way of working, lets you choose a design and tells me what you need. Fill it in a few minutes, save it and send it back to me.

3 Results and Discussion

**My tip: Captions above tables, below figures.**

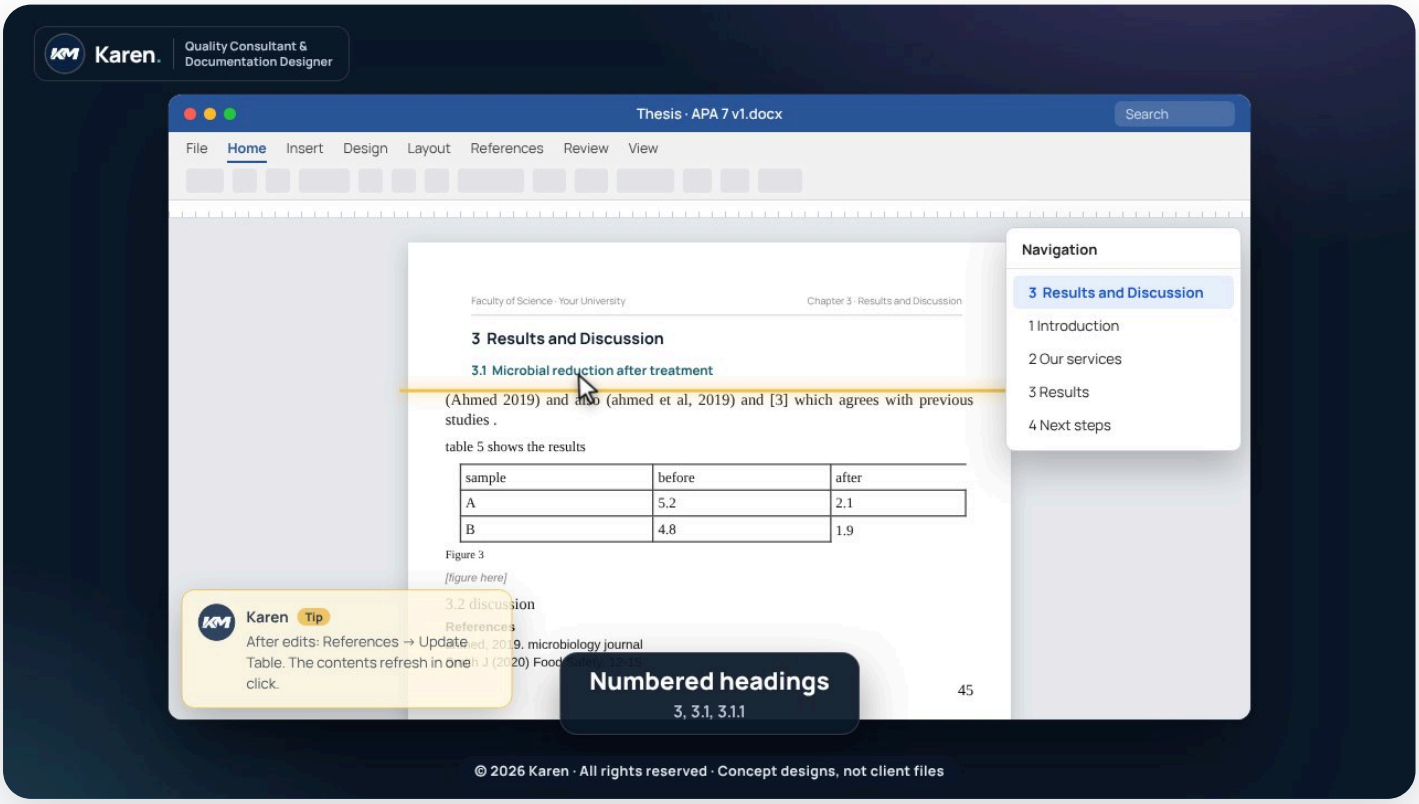

Most university guides ask for this, and many students mix them. Check your guide once, then let Word number every caption for you.

HOW I WORK ON YOUR FILE

# By hand, *step by step.*

A moment from my work on a file like yours. I build everything on the program's own tools, so the file stays easy for you to edit later.

## Two things I do on every file

### Styles, not manual formatting

Change the Heading 1 style once and every heading in the file follows.

### Headings that never sit alone

I tick "Keep with next", so a heading never sits alone at the bottom of a page.

## Before I send it

**Content and numbers**
Checked against your file

**Design and formatting**
Same fonts, colours and spacing

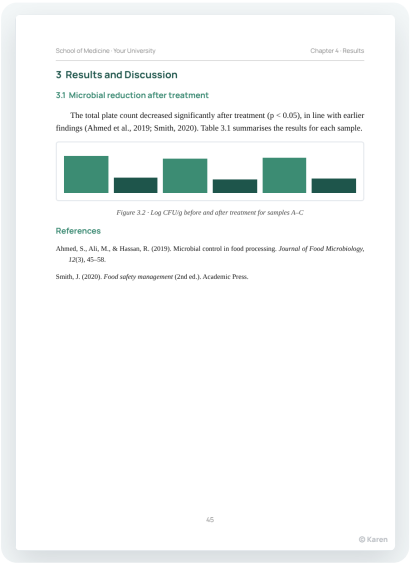

**The final file**
Opened once more, saved as PDF too
