How I work

1. **Send your file, notes or idea**
2. **Get a free sample on your own content in 12–24 hours**
3. **Approve, then order**
4. **Receive editable files + 2 weeks of free revisions**

My tips

1. Auditors look for documents that are controlled, clear and actually used. I write them simply, so your team follows them.
2. Score every risk by severity × likelihood, then show the action and the owner. A risk without an owner is only a list.
3. Keep one master list of documents with number, revision and owner. It answers half of the auditor's questions.
