YOUR PROJECT BRIEF

# Good content.
# *Broken Word file.*

"Error! Bookmark not defined", mixed bullets, wrong page numbers, a picture that jumps. The problem is how the file is built. This file shows you my way of working, lets you choose a design and tells me what you need. Fill it in a few minutes, save it and send it back to me.

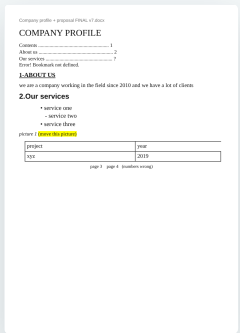

## What you get

Before

After · my way

**My tip: Use Heading 1, 2 and 3. Always.**

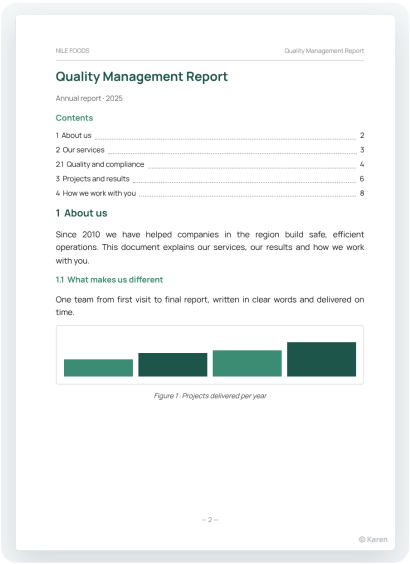

Never make a title by making text big and bold. Use heading styles, and Word builds your contents page, numbering and navigation for you.
